

Understanding the Portable Glass Shop is important to Art Glass Store owners, Art Glass Teachers and Art Glass end users. The next two pages are a guide to finding Portable Glass Shop information on the mortonglass.com web site. It is my hope that you will share this information with all Portable Glass Shop users.

Video - install & calibrate Fence Extension rulers - [Wing nut model](#) - new 2022
Video - [Portable Glass Shop User Tips](#) - Tips for PG01B & PG15B users - new 2022
Portable Glass Shop [Website Guide](#) - Fence Extension [Ruler Install](#)

The **PG01B** with the 22 inch cutting bar has been replaced by the **PG15B** with a 15 inch cutting bar. Changes in the new model include more accurate rulers, wing nuts to replaced the black knobs and a Fence Extension with wing nuts to hold the rulers in place. Being able to go from a inch to metric ruler or switch from left to right hand setup in seconds is very helpful to end users.

1... These are links to videos that will help to explain changes from the PG01B to the PG15B. The "Website Guide" will help PG01B & PG15B users find website help for the Portable Glass Shop.

2... This link is help for users to number a new or old Morton Surface for the PG01B or PG15B.

3... The eManual is a very helpful instruction guide for all Portable Glass Shop users.

4... When Adobe ended "Flash" the calculator program for the Circle & Border System stopped working. This link is a replacement method and is easy to use after a little study.

5... The PG01B Videos & Tutorial button will open a page of videos for the Portable Glass Shop user. The videos are very step-by-step instructions that should be a starting point for all new Glass Shop users. All Glass Shop users should at least watch the first five videos before turning to YouTube or Facebook for help. There is much information out there and it can be very confusing unless you understand the basics. **6...** Portable Glass Shop web page.

The Morton System **Don't Do Glass Without It!**

© Morton Glass Works, Inc. 2013

Impediments to using the Portable Glass Shop effectively start with your skill with the glass cutter. If you can score and break glass effectively you will have little trouble using the Portable Glass Shop. If you feel your scoring and breaking skills need help the video "Understanding the Safety Break" will be very helpful.

Picking a glass cutter that is compatible with the Glass Shop is important. Please watch the videos labeled "Compatible Glass Cutters".

Portable Glass Shop Videos, Tutorials & Projects

*** April 2022 update note:** The PG01B has been replaced by the PG15B. The PG15B has a 15" cutting bar and the PG01B has a 22 inch cutting bar. All functions and settings are the same for both models. References to the PG01B in instructions or videos apply to the PG15B.
